

**Civil society and individuals from around the world call on UN HRC Member States to  
Vote in Favor of the OIC Resolution on Palestine during HRC 30th Special Session**

**Text of the petition and signatories below as of 2:45pm CET**

**Petition in Support of Establishing an Ongoing UN Commission of Inquiry into Systemic  
Violations Targeting the Palestinian People on both sides of the Green Line**

For 73 years, the Palestinian people have endured an ongoing Nakba. Israeli settler colonialism, ethnic cleansing, and apartheid have meant a relentless onslaught on Palestinians across their fragmented geographies, aimed at their transfer, dispossession, and erasure, in order to ensure Zionist domination over Palestinian land and resources.

In the context of the upcoming 30th Special Session of the UN Human Rights Council on the situation in Palestine on 27 May 2021, we strongly support calls for the establishment of an ongoing commission of inquiry into all violations of international human rights law and international humanitarian law, including systemic discrimination based on racial, ethnic, or religious identity, on both sides of the Green Line. This investigative mechanism must address the root causes of structural and physical violence targeting the Palestinian people.

**As such, we urge UN member states to:**

1. Engage in the 30th UN Human Rights Council Special Session and address escalating Israeli attacks against the Palestinian people, including their root causes, on both sides of the Green Line.
2. **Establish an ongoing commission of inquiry to:**
  - Monitor, document, and report on all violations of international human rights law and international humanitarian law, including the escalating attacks against Palestinians on both sides of the Green Line since April 2021;
  - Include and address the root causes of Israel's institutionalised regime of racial domination and oppression over the Palestinian people, in line with the 2019 Concluding Observations on Israel by the UN Committee on the Elimination of Racial Discrimination (CERD), which found Israeli policies of racial segregation and apartheid disproportionately targeting Palestinians on both sides of the Green Line;
  - Identify individuals responsible for serious crimes committed and place all collected evidence at the disposal of international justice mechanisms, notably the International Criminal Court in its ongoing investigation in Palestine.

These demands were expressed in a joint letter to states issued by Palestinian civil society and have been endorsed by a coalition of 120 regional and international civil society organisations.
